WillDo Studio

SETUP GUIDE

Spend Less.

The widget that makes your spending **obvious.**

5 minutes to set up · swipe ↓

HOW IT WORKS

WillDo Studio

Your money, where you can see it.

1

Set a weekly budget

Resets every Monday. No rollover.

2

It lives on your home screen

The first thing you see when you unlock.

3

Apple Pay updates it

Every tap: a notification, the number drops.

4

Save → get rewarded

A random day next week turns green. Half your savings, guilt-free.

BEFORE YOU START

WillDo Studio

You need

- ✓ An iPhone on iOS 17 or later
- ✓ A card in Apple Wallet
- ✓ **Scriptable**, free on the App Store
- ✓ The **Spend Less** script, from the link

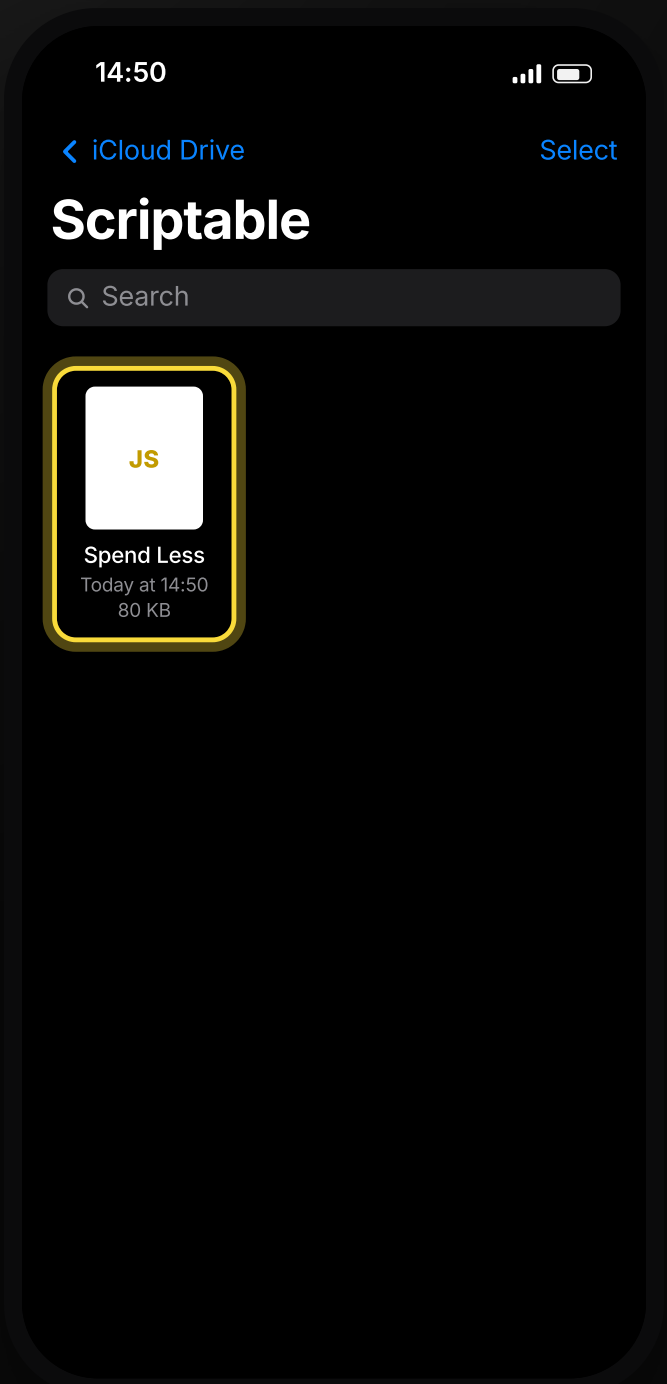

5 minutes.
Let's go.

STEP 1

WillDo Studio

Get the script

Install **Scriptable**. Save the Spend Less file to **Files › iCloud Drive › Scriptable**.

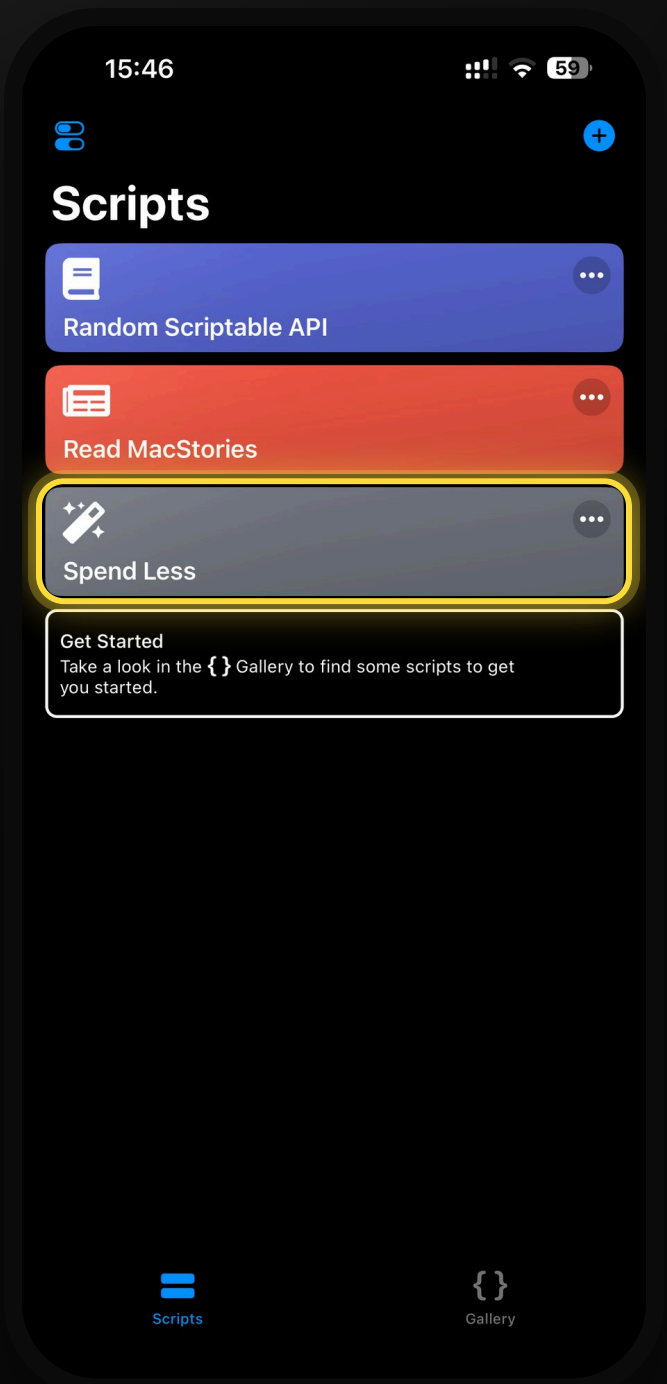

STEP 1

WillDo Studio

Check it's there

Open Scriptable. **Spend Less** is in your scripts.

Copied it instead? Tap +, paste, rename it Spend Less.

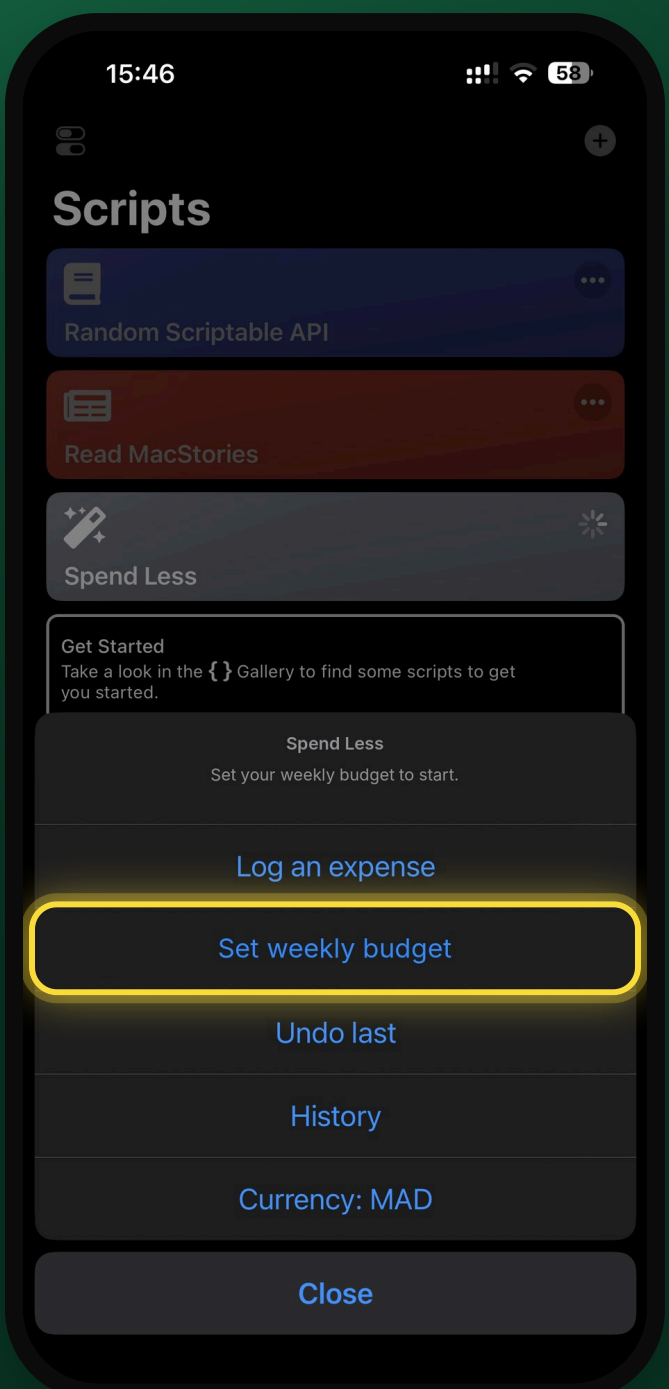

STEP 2

WillDo Studio

Set your budget

Tap **Spend Less**, then **Set weekly budget**.

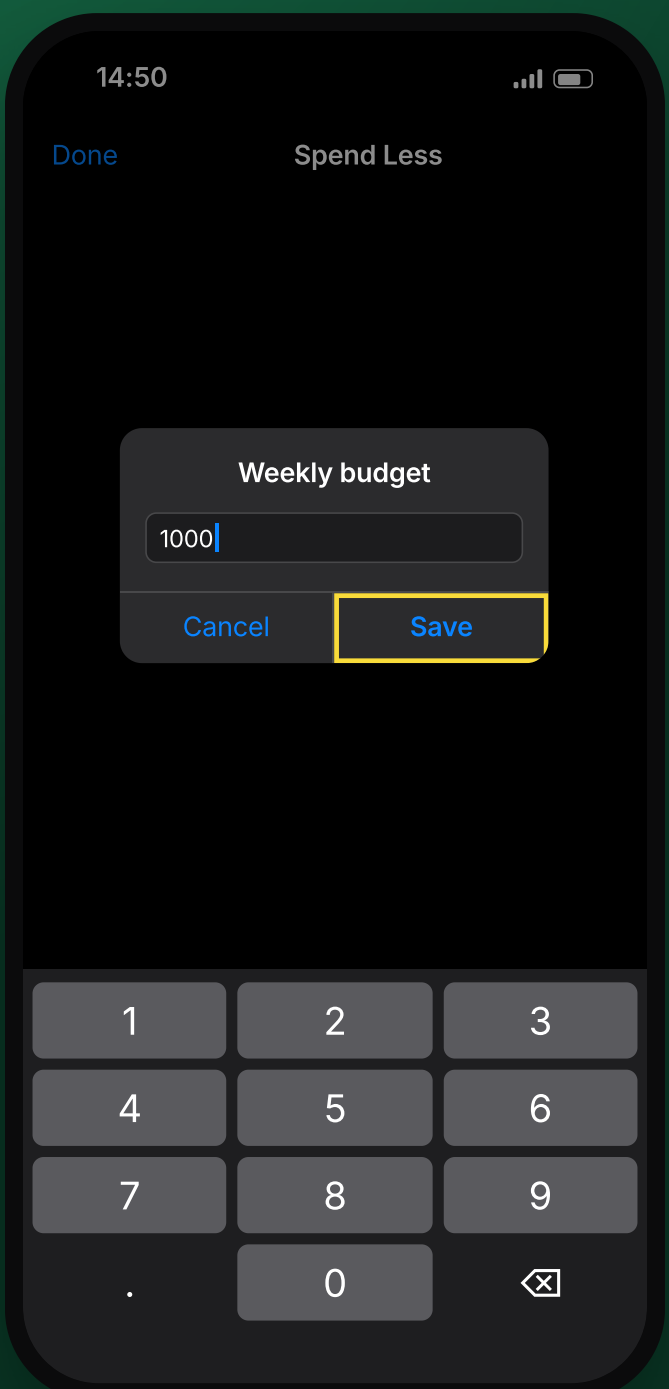

STEP 2

WillDo Studio

Type your amount

What you can spend on yourself in a week. Tap **Save**, allow notifications.

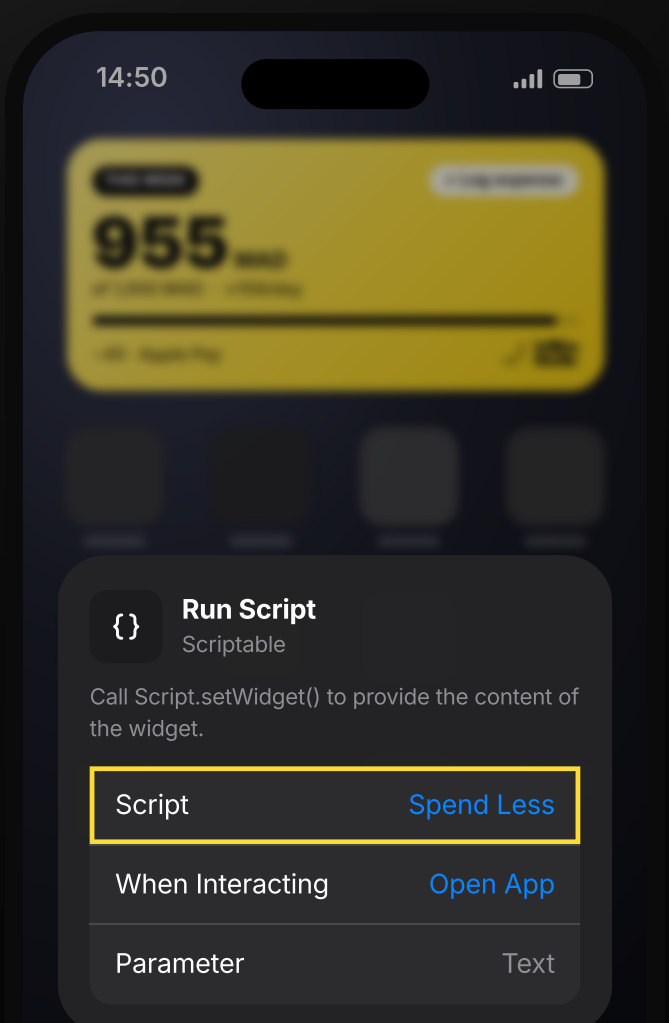

STEP 3

WillDo Studio

Add the widget

Long-press home screen › **Edit › Add Widget** › Scriptable › medium. Then **Edit Widget** › Script: **Spend Less**.

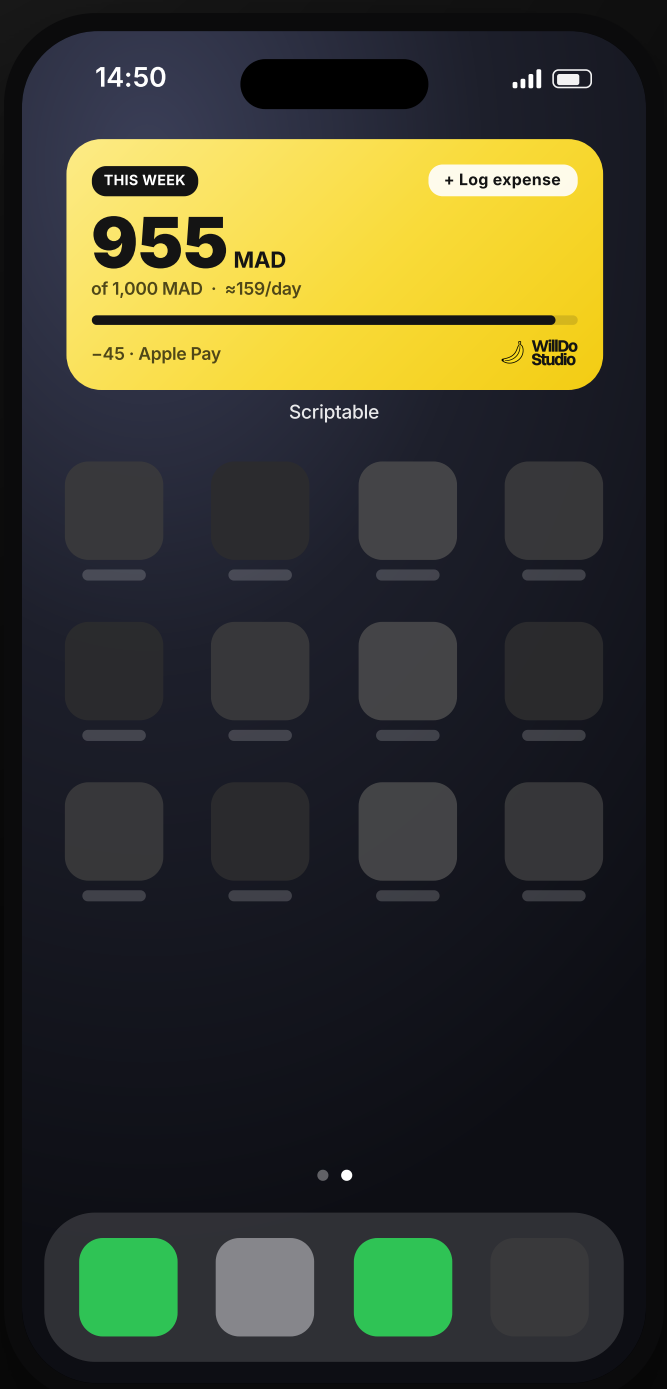

STEP 3

WillDo Studio

There it is

Put it on your first page. You'll see it every time you unlock.

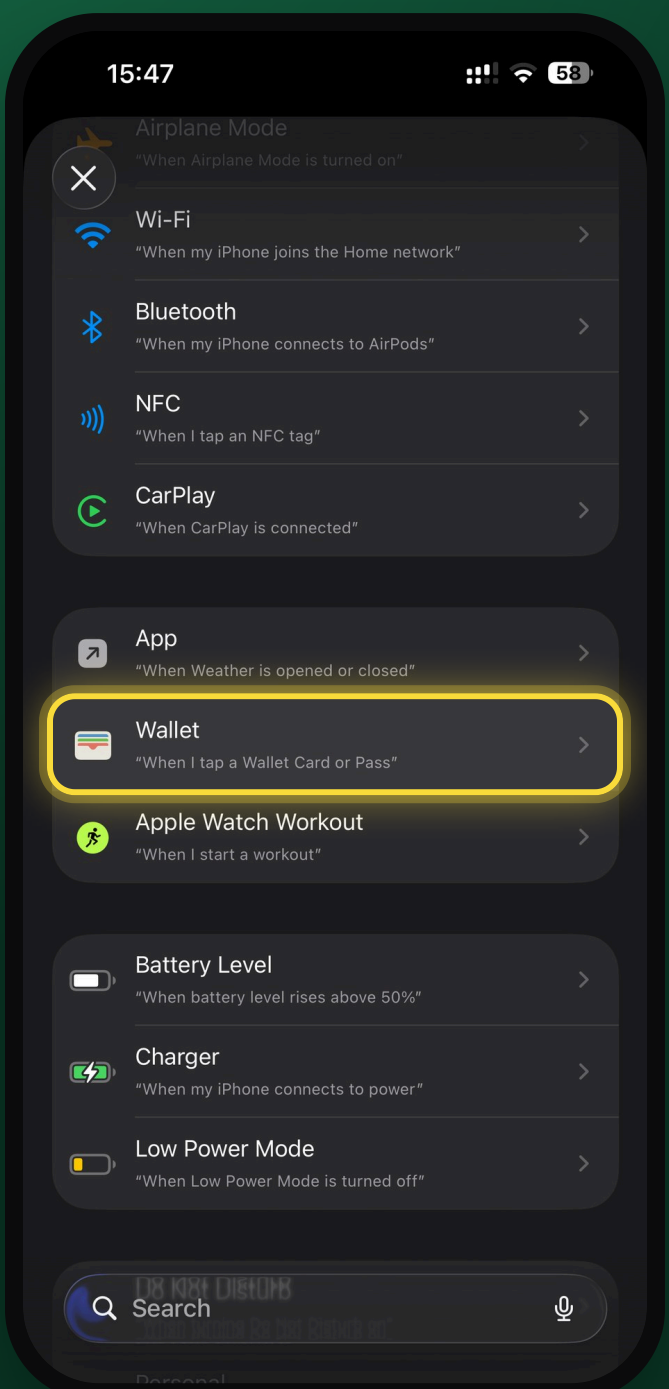

STEP 4 · 1/7

WillDo Studio

Connect Apple Pay

Open **Shortcuts** › **Automation** › **+**.
Scroll down and tap **Wallet**.

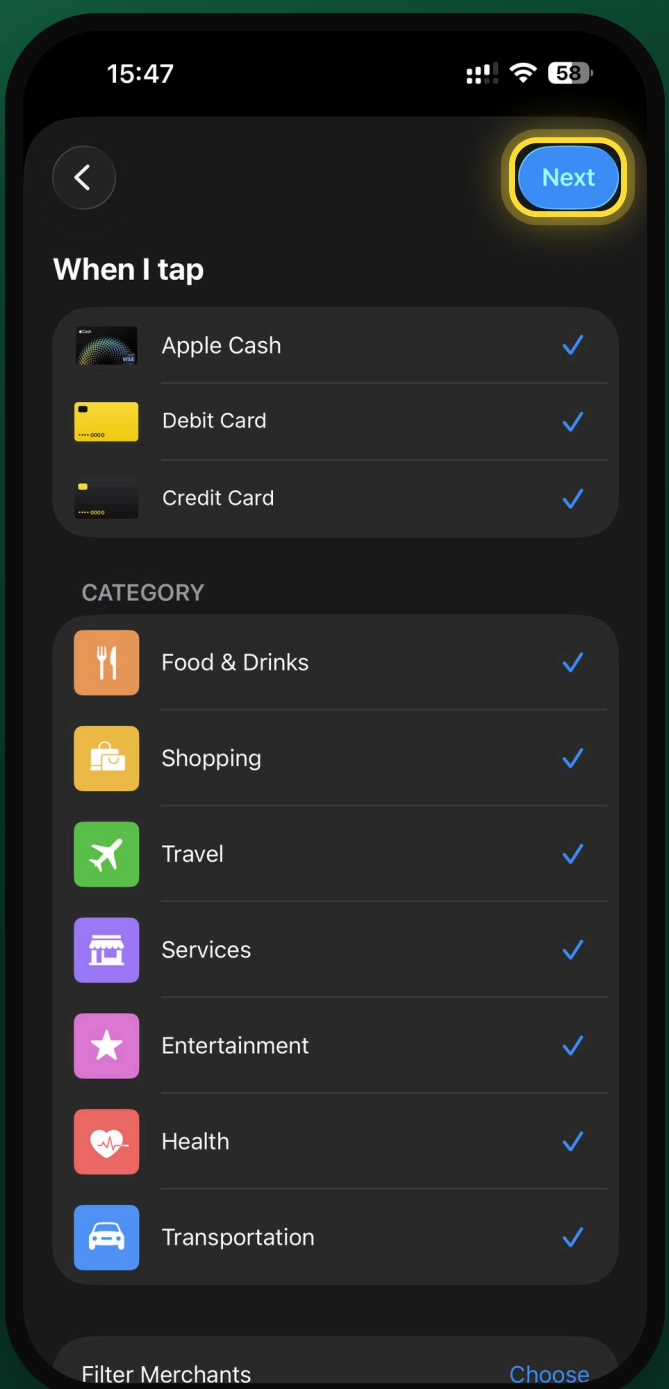

STEP 4 · 2/7

WillDo Studio

Pick your cards

Tick the cards you pay with. Leave the categories on. Scroll down: **Run Immediately**, **Notify When Run** off. Tap **Next**.

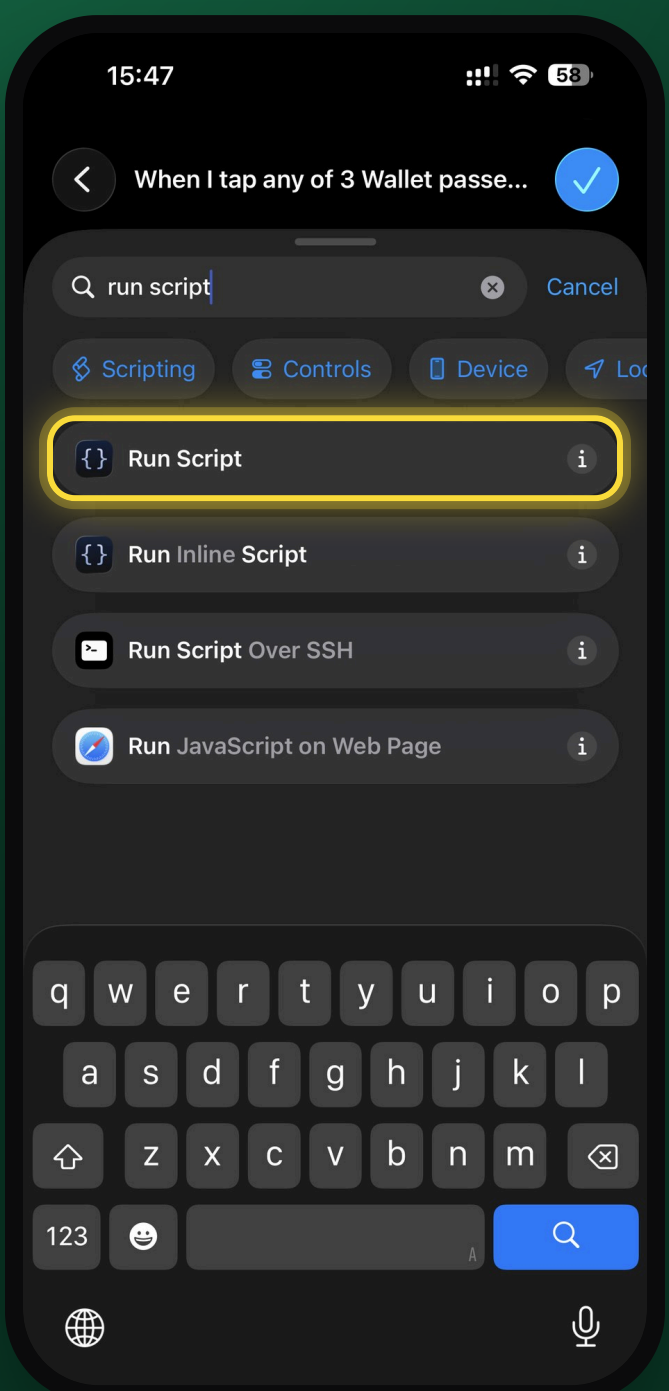

STEP 4 · 3/7

WillDo Studio

Add the action

Tap **Create New Shortcut**. Search **run script** and tap **Run Script** (the **{ }** one).

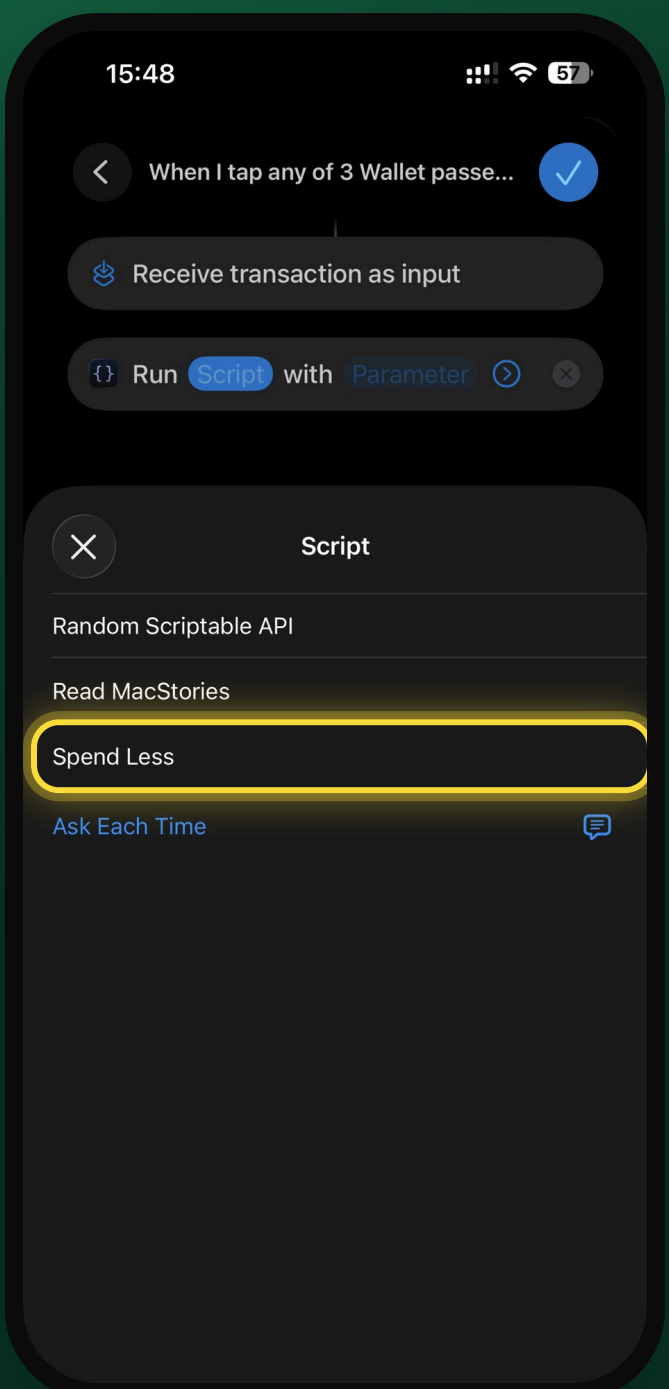

STEP 4 · 4/7

WillDo Studio

Choose Spend Less

Tap the blue **Script** and pick **Spend Less**.

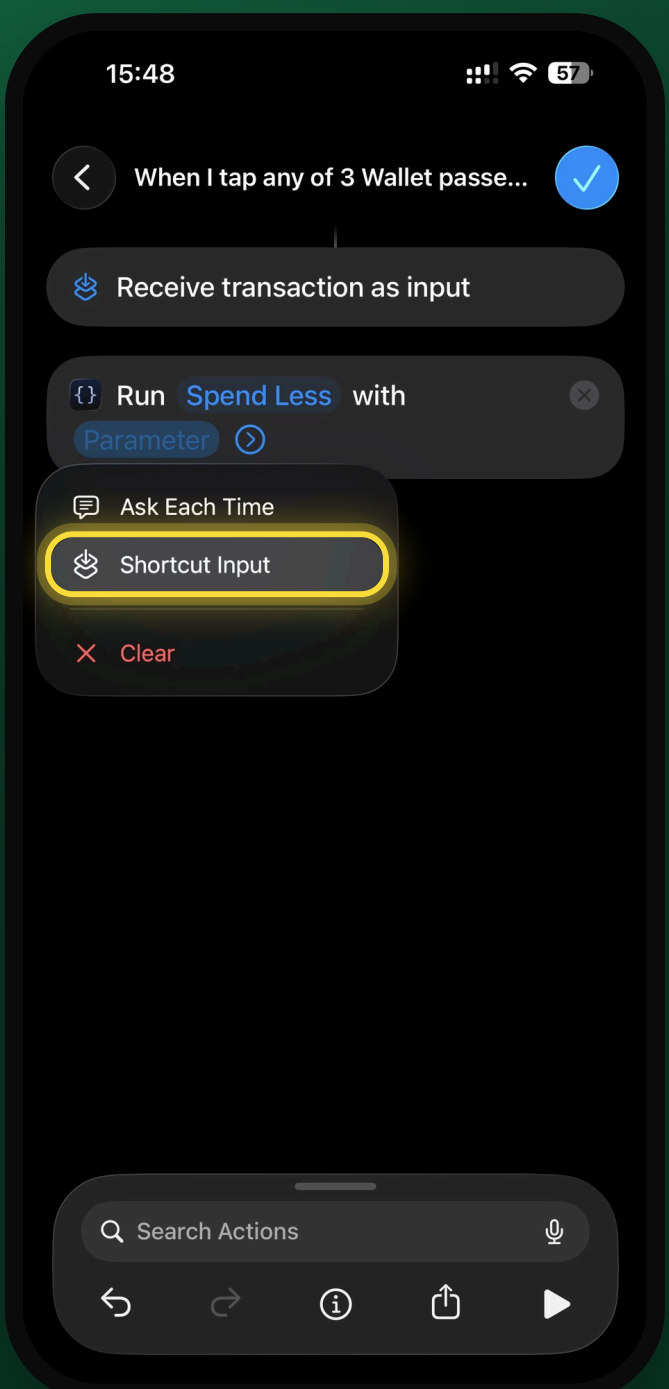

STEP 4 · 5/7

WillDo Studio

Send the payment

Long-press the blue **Parameter**,
then choose **Shortcut Input**.

A normal tap opens the keyboard. Hold it instead.

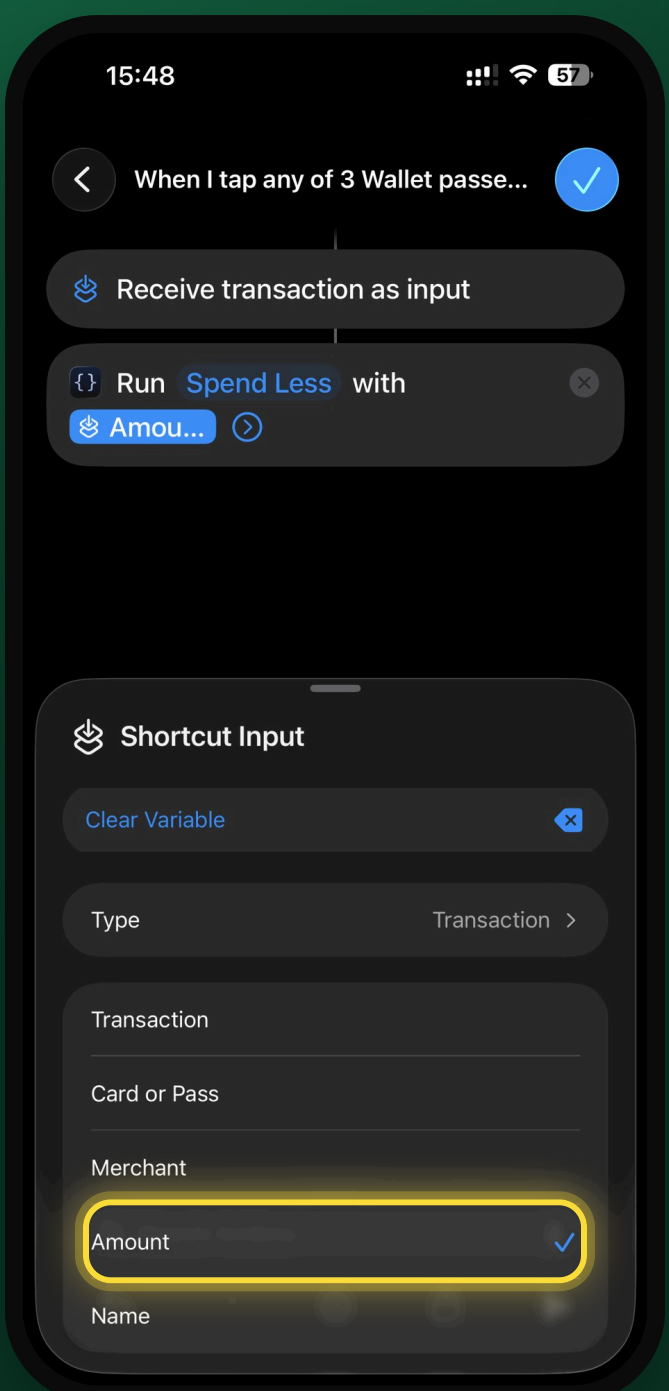

STEP 4 · 6/7

WillDo Studio

Only the amount

Tap the blue **Shortcut Input** again and choose **Amount**.

This is the part people miss. It has to say **Amount**.

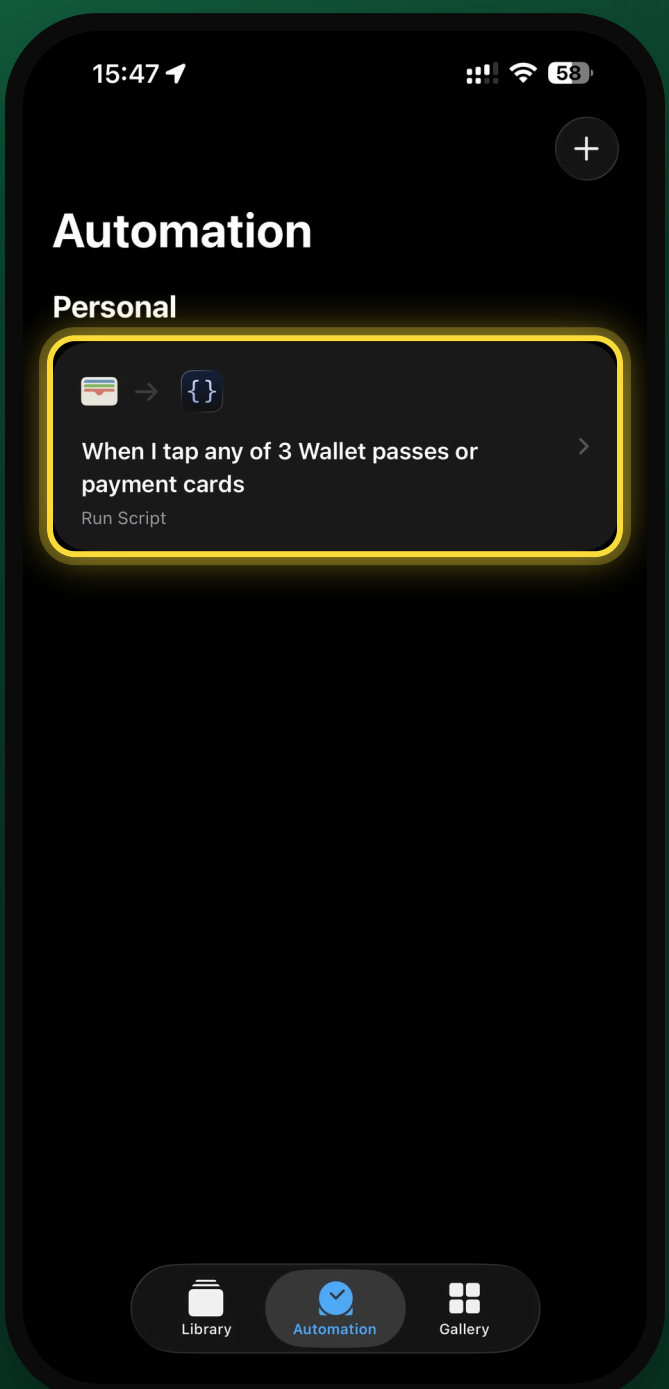

STEP 4 · 7/7

WillDo Studio

Save it

Tap ✓ top right. Your automation shows up in the list. Done.

✓ not working? The back arrow saves too.

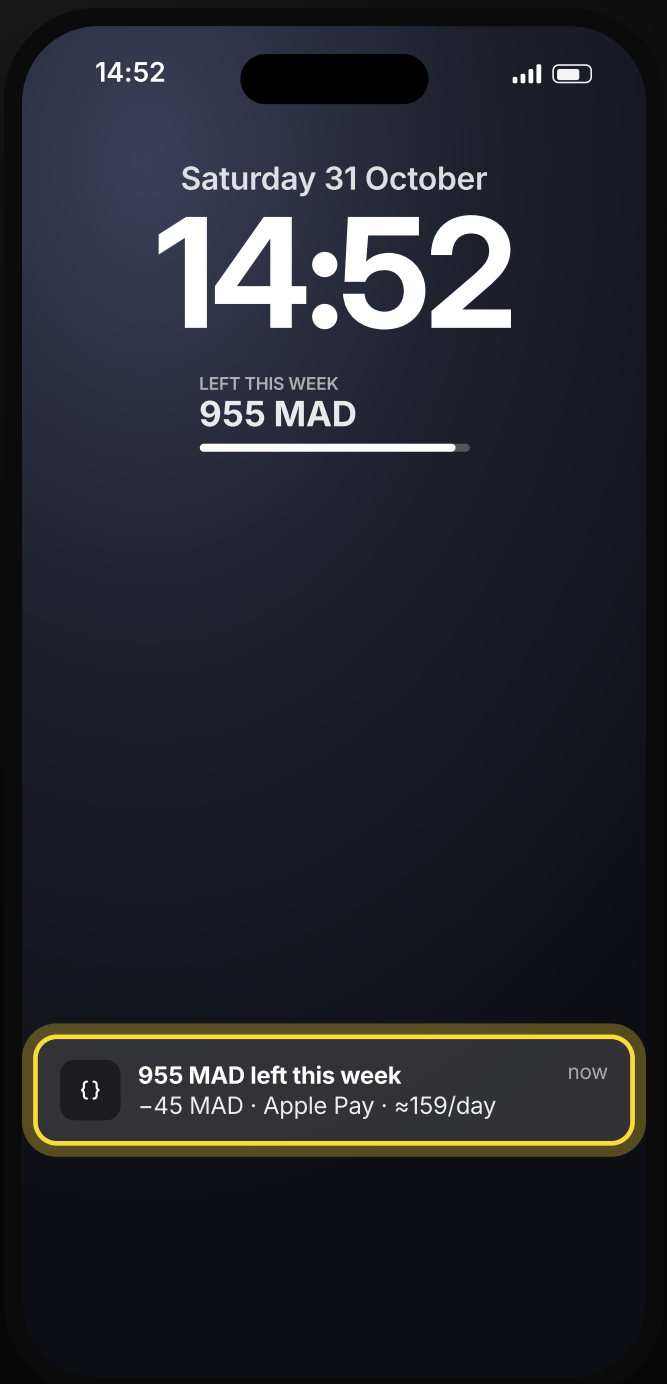

STEP 5

WillDo Studio

Test it

Pay for a coffee with Apple Pay. The notification comes in seconds. The widget catches up in a few minutes.

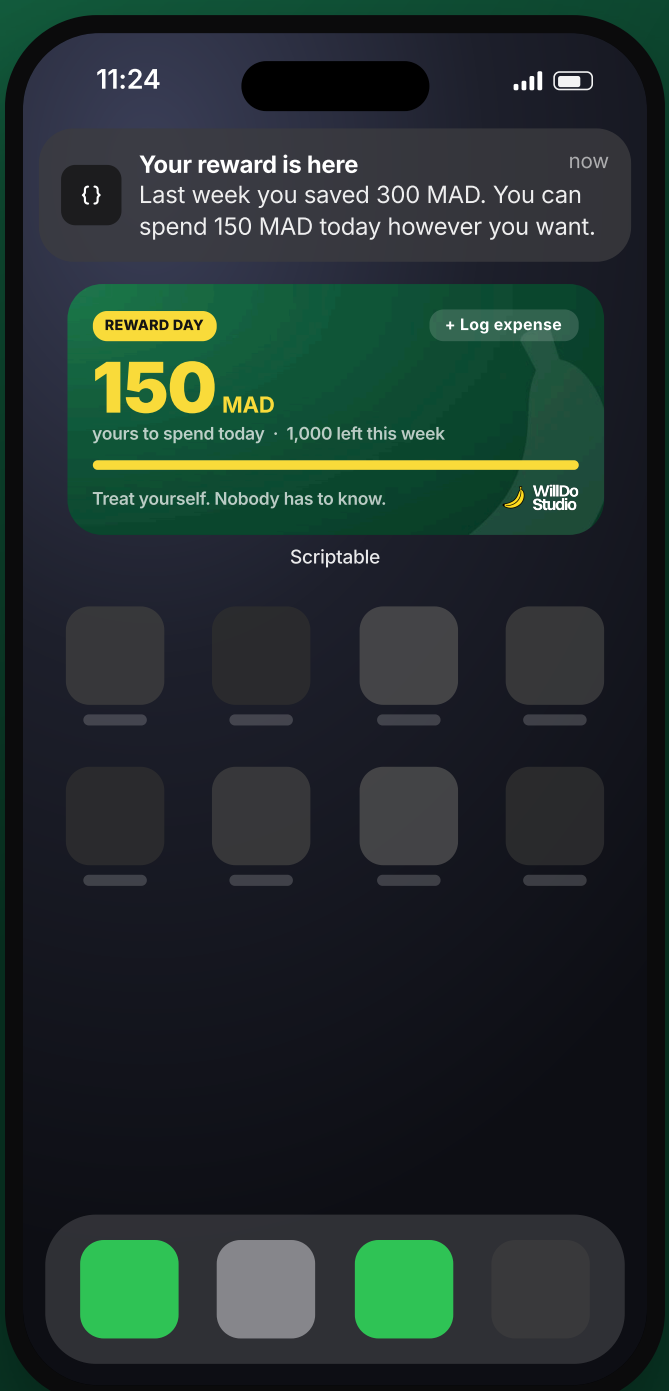

BONUS

WillDo Studio

Reward day

Saved money? A random day next week turns green. Half is yours to spend that day.

HELP

WillDo Studio

If something’s off

Widget didn't update?

iOS refreshes it every few minutes. Tap it to see the latest.

“Payment not logged”?

Tap the notification and log it in 2 seconds.

“Automation failed”?

Apple’s Wallet trigger can be flaky. Use **+ Log expense**.

Paid by card or cash?

Only Apple Pay is automatic. Use **+ Log expense**.

WillDo Studio

Spend less. Treat yourself more.
